

1400 FLEX STACK / 1500 FLEX SLED
OCCASIONAL TABLES / SYSTEMS SEATING

1410PL ARMLESS STACKER

1420PL ARM STACKER W/CASTERS

1400PL ARM STACKER

Classic Style
Functional Design
Exceptional Support
Lasting Comfort

Flex's ergonomic design is comprised of a flexible contoured pivoting back which adjusts its pitch as users adjust their posture allowing ultimate seating comfort.

The average guest or stack chair, simply offers one back pitch, often fitting only a small range of users. The pivotal range of the Flex chair back allows its contour to follow the lumbar, offering exceptional support, making it comfortable for users of nearly any stature and extending the length of seated comfort.

Placed in a lineup of competing chairs, Flex separates itself from the pack as the best choice for overall seating comfort and has become the hands down first choice of decision makers.

**Utilize as Individual Elements
or Ganged as Systems Seating**

141-SQ 21"D SQUARE

142-45 21"D 45° WEDGE

143-60 21"D 60° WEDGE

Cover and pages 2 and 3.

1500PL GANGED ARM SLED

Styles for Any Setting

Offered in Stacking, Stacking w/Casters and Sled Base models. Flex's versatility makes it perfect for use in Private Offices, Conference Rooms, Waiting and Lounge Areas, Training Rooms and Auditorium Settings. Shown in black frames which compliment nearly any work environment.

Durability by Design

Flex features a molded plastic under seat pan which entirely encapsulates its under frame on all models to protect upholstery and foam when stacked.

Seating:
Frames: BK - Black
Covering: CF Stinson
Contract Vinyl
Pattern: Tessuto
Color: Marco

Adaptability

Arm, Armless, Leg and Caster models all stack mixed or in stacks of one style.

Placing a Caster model at the bottom of a stack of four chairs offers quick rearrangement and ease of movement in small or large multi-purpose rooms without the need for High Density Chair Dollies.

High Density Chair Dollies are available for stacking and storing up to fifteen chairs high.

Stacked Top To Bottom:

Versatility, Connectability

The versatility of the Flex Chair allows use as a single chair or as a system seating which may be ganged to maintain alignment on stack or sled styles. (See optional ganging brackets bottom of page 3.)

Espresso frames shown on pages 6, 7 & 8 complement and enhance warm earth tone pattern and solids. Fabrics shown are CF Stinson woven Cyrpton®.

Arrange, Arrange and Rearrange Infinite Configurations!

Flex offers a sled base cocktail table and five standard sled base occasional tables which may be combined or ganged with seating in infinite configurations. A five sided corner table offers ample space for magazines and knick knacks while a square table offers a more compact corner layout. Wedge shaped tables are designed in fifteen degree increments to combine with seating which may be used to follow architectural perimeters to maximize use in small spaces or to creatively plan open seating areas.
